The Human Resources Committee notes that the requirement is for an additional 0.5 FTE in order to meet the obligations of the draft Sea Fisheries (Amendment) (Jersey) Law 200-. Following discussions with the Department of Agriculture and Fisheries, the Committee understands that a 0.25 FTE compensatory saving has been identified by that Department which could be used to offset part of this additional 0.5 FTE Public Sector manpower requirement. If the States adopt the projet, the Committee will interpret that decision as support for the remaining 0.25 FTE required if further compensatory savings cannot be found from within existing resources.
