

22.11.22

6 Deputy M.B. Andrews of St. Helier North of the Minister for Housing and Communities regarding the digital register of property (OQ.113/2022)

Will the Minister provide an update on the digital register of all property, including beneficial ownership?

Deputy D. Warr of St. Helier South (The Minister for Housing and Communities):

I thank the Deputy for his question. A report was commissioned by the last Government on the Digital Property Register, which has recently been completed and shared with me literally in the last week, but I have not yet considered its contents. I have been clear all along that we must get to grips on data. I hope this report will help us move forward and I am keen to learn how a register of all property, if it is possible, can be used to support our understanding of the property market in Jersey. I apologise for my frog-like throat.

The Greffier of the States (in the Chair):

Deputy Andrews, no further supplementaries.
