

To keep cash gives us a choice.

Some people don't have on line banking and choose not to.

Visitors to the island might like to use cash / credit card - their choice.

I've been on two holidays recently and both countries gave a choice - both preferring cash as they don't have the credit card charge.

Jersey has its own notes etc - how lovely to keep that.

Leave us a choice - cash you can handle - you don't need numbers (which you have to remember). I know it's easy to pay with card but not everyone wants that.

Don't penalise people who would like that choice to know what they are spending and how much they have left.
