COMMENTS

The Council of Ministers accepts this amendment in full.

- (1) A commitment has been provided by the Ministerial Oversight Group that “in view of the scale of the Project, a standalone report and proposition on the Future Hospital is in the best interests of transparent and open Government”.
- (2) The Council of Ministers agree that it is important to support existing businesses, whose success is secured and maintained by remaining competitive and delivering productivity improvements.
- (3) This Amendment is fully aligned to the Council’s thinking. The catalytic effect of government-sponsored change can be considerable, and there is a need to ensure that the regenerative value of the development of public assets is aligned with improving our town.
