THE STATES resumed consideration of the proposition of Deputy Jessica Harriet Perchard of St. Saviour, as amended, and, adopting the proposition –

- (a) agreed that the Council of Ministers should deliver a Common Population Policy to the Assembly to be debated before 31st December 2021;
- (b) agreed that any such common policy on Population informed and underpinned the planning assumptions in future Island Plans, and that any population targets in the Population Policy were matched in the Island Plan;
- (c) agreed that this Population Policy should present sustainability data showing the infrastructural, educational, health-related, environmental and social requirements of the proposed population size across the period to 2070 and include an explicit prediction of the population size for 2030, 2040, 2050, 2060 and 2070 based on its proposed rate of tolerable population growth;
- (d) agreed that this sustainability data should incorporate all required major infrastructure projects (in 10-year intervals) arising from the forecast rate of population growth, including but not limited to: the number of new primary and secondary schools, hospital facilities and staff accommodation, affordable homes for first-time buyers and for elderly residents, social housing, the required road maintenance and construction, the impact on carbon neutrality goals and the provision of utilities;
- (e) agreed that this data should also include, for every 10-year interval across the period to 2070, any anticipated additional funding required for Income Support, pensions, Long-Term Care and all other contributory benefits;
- (f) agreed that, as part of the development of the Population Policy, the public should be consulted on its views regarding a sustainable population size across a 50-year period; a representative and proportional sample of the Island's population to be included, that being a sample whose gender balance, residential statuses, ages, ethnicities, and other key characteristics reflected that of the Island's overall population;
- (g) agreed that the Population Policy should demonstrate reasonable and thorough consideration had been given to a net-zero inward migration policy and provide a clear rationale (with supporting data) for why such a policy had not been proposed, should that be the case; and
- (h) requested the Council of Ministers to take the necessary steps to implement paragraphs (a) to (g) when developing a forthcoming Population Policy for debate by the States Assembly.
