Dear Deputy Binet,

New Healthcare Facilities Programme Review

The Panel's understanding to date has been that for each of the major projects which are currently in the scope of the New Healthcare Facilities Programme (an acute hospital at Overdale, ambulatory services at Kensington Place and Gloucester Street and a health village at St Saviour) an outline business case would be developed which would comply with the expectations of the Government's Corporate Portfolio Management Office (CPMO) framework for delivery of major projects and programmes.

The Panel would be grateful if you could confirm that it remains the intention to develop outline business cases for each project. Please could you also confirm that each of these will contain a consistent level of detail, will satisfy the criteria of a five case model and will fully meet the expectations of the CPMO framework.

The Panel would be grateful for your response within five working days of receipt of this letter.

Yours sincerely
